85	New		Does this include changing from online to in person the day school opens, since it will be in the middle of a grading period?		We will be able to accommodate students moving from 1 platform to another during the grading period.
86	New		Hello, my question is in regards to the symptom check list protocols. Both of my teens are students and they both have allergies and sinus issues at times. When this occurs sometimes they both get coughs. Am I supposed to keep them home every time they have a cough and or will they be sent home every time even though I know it is allergy related. In addition will I have to go to the Doctor every time to get them released to go back to school if this occurs? Thank you		The new guidelines accommodate for this. If it is a normal condition or a seasonal norm, you can consider this and still send them to school. You would want to look for other issues other than their normal symptoms.
