

Parents and Students,

In preparation for the coming school year, I wanted to send a reminder from the Conroe ISD student handbook about campus deliveries. The delivery of food, flowers, balloons, etc. to students at school is not permitted.

Delivery of food to students from outside vendors is not permitted. Parents cannot provide food for other students, therefore the student must be able to consume the amount of food delivered by the parent. However, if a student forgets a lunch, an assignment or project, or uniform for a sport, deliveries may be made to the front office for the student to pick up during the school day. The front office personnel will tag the item, send the item back to the grade level office, where the student may retrieve it. Class instruction will not be interrupted to deliver items or messages to students, unless an emergency, as deemed by the school administrator, exists. All deliveries are subject to search at the discretion of the campus administrator.

Thank you for your cooperation in keeping our campus safe!
