

Car Rider Line:

We are looking forward to a new school year. We would like to share information to help with student drop-off/pick-up. Please review the attached map so that you can maneuver the car line as efficiently as possible.

Basic Information: All drop-off and pick-up of students are only allowed in the front of the building using the main entrance (Honor Roll Drive). There are two lanes for traffic. The lane closest to the school or at the curb (right lane) is for the loading and unloading of students only. The inside lane (left lane) is for **thru traffic only** (do not drop a student off in this lane). All other areas around the building have specific traffic and student access purposes. Also, some doors around the building are not accessible in the mornings. Student drivers will enter the campus using Achievement Drive. After parking, the side entrance (Robotics Lab) will be accessible to student drivers. You must use the College Park Dr. Entrance or the Achievement Drive entrance during this time.

Drop-off/Pick-up Zone: The drop-off zone is directly in front of the main entrance (the curved area). It begins at the fire hydrant and extends back to the beginning of the curved area. Drop-off and Pick-up should only occur in the right-hand lane next to the curb. In this zone, it's crucial that no cars should go from the thru traffic lane to the drop-off/pick-up lane. We urge you to pull all the way up to the start of the zone or the car in front of you. Drop-off and Pick-up may occur before or after the normal zone but only at the curb. Please note the building access locations to make a good decision on your child's drop-off. Please do not stop in one of the curves of the drives leading up to the straightaway, as this holds up all traffic. You may enter the drop-off/pick-up lane before or after the Drop-off/Pick-up Zone. Please ensure your child is ready to exit the car immediately with their items in their hand so that this process is smooth. Your cooperation in following these rules is not just appreciated, but it's crucial for the safety and efficiency of our school community. We are all responsible for ensuring a smooth drop-off/pick-up process.

All students should be picked up promptly. Once school ends, all students are expected to be picked up by 3:05 p.m. Students who stay for a club meeting or tutoring should be picked up within 20 minutes of the event's conclusion. If a student is staying for an event later that night, the student should go home and return to campus at the appropriate time. This ensures the safety and well-being of our students, and we appreciate your cooperation in this matter. Your cooperation is not just important, it's invaluable to us. We couldn't ensure the safety and well-being of our students without your help.

Building Access Areas: We are working to improve campus safety by limiting access to the building during the normal drop-off time. Please note the changes and plan accordingly. The main entrance doors will be open for car riders. The east side of the building will only have the side door entrance (Robotic area) accessible to student drivers. The bus loop back doors will be able to be accessed before and after school.

Timing: We know traffic can become a little frustrating in the morning. We recommend leaving early, especially on the first few days of school. Please understand that once you turn on

Honor Roll Drive, it takes around 2 minutes or less to go through the car line if everyone does as asked. The more people do not cooperate, the longer it takes.

We ask that you plan for days when the weather might impact your drive and leave earlier than usual to avoid delaying your child's arrival time. This proactive approach will help reduce stress and ensure a smooth start to the school day for your child. By planning ahead, you can reduce the uncertainty and stress that can come with unexpected weather conditions, ensuring a smoother start to the school day for your child.

Shopping Center: Please do not drop-off your student at the strip centers in the front of the building. This causes a problem with the business and is unsafe for students arriving at school. Also, it creates a traffic issue as students cross the path of moving cars with no assistance. If you need to visit one of the restaurants in the front, please use the drive-thru and then enter the car line. If you are going to enter Chick-fil-A, please pass Honor Roll Drive and enter the shopping area at the next entrance.
